Bilateral Meetings

- Saturday 14 May 2016 (09:30 am - 10:45 am)

Description

Divers Cape Unipessoal Lda, is a professional diving school, situated in the Port of Baleeira in the extreme south-western corner of Europe, in the village of Sagres, which remains mostly unchanged. Divers Cape is based on professionalism, competence, safety, hygiene and sympathy, with a staff of instructors who are experienced, qualified and certified by PADI (Professional Association of Diving Instructors), performing regular diving courses at various levels and specialised courses. The school was formed in January 2008, by the Technical Director and Instructor Daniel Balmer, MSDT - 912564 aiming towards the teaching of qualified recreational divers. We aim to cover all aspects in the field of recreational diving and professional diving for business, offering interesting diving packages and courses at different levels, and prices.

Areas of Activities

Active and Nature Tourism Activities

Offer

Diving School, Scuba Diving, Snorkeling Tours, Boat Trips

The Divecenter offers diving courses for beginners and professionals at marvelous diving spots, underwater caves, canyons and ship wrecks on the Atlantic Ocean. You can proof your diving ability with the "PADI Open Water Diver" for beginners or with the "PADI Advanced Open Water Diver" for experienced diver. The Divecenter has got experienced Divemaster and instructors and assists in all questions around the sea and the sport. In a mild sea climate with water temperatures of 15 to 21 degree Celsius diving is possible all over the year. There is the possibility to go off shore three times a day. With high qualitative diving suits and material of the Divecenter you can discover one of the best 20 diving spots worldwide. In front of the harbor you can dive around the beautiful islands "Ilhas do Martinhal" and take a look at the sea life of sea breams, spiny lobster, spider crabs and starfishes. In the caves of the "Grutas / Ponta da Atalaia" a big underwater hall - the "Cathedral" - is waiting with impressive stalagmite on you, different kind of corals, gorgonian, lobster and octopus can be discovered on your diving visits.
