Description

County House located on a 10 hectares area, inside the Sapal de Castro Marim Nature Reserve, which is an outstanding ecosystem in Algarve for bird life that uses the extensive areas of the marshes, or wetlands, and the saltpans to breed. Perfect conditions for nature tourism and practising activities as birdwatching (agreement with birdwatching guiders and binoculars available), cycling (bicycles and a bike box - for storage, maintenance and cleaning both available) and hiking.

Espargosa Birdwatching Resort is offer a service with eight rooms, all them with privative toilet and air-conditioner. We have availability to rent it in two different ways: Bed and Breakfast room or the entire house for a big group of people. Located at only one kilometer from Castro Marim, Espargosa has got excellent accesses, right next to the national road, N125-6 at only eight minutes from Praia Verde and Praia da Retur.
